Charging Cable

Turning On/Off

On | Place two fingers over touch sensitive control areas for 3 seconds

Indicator LED will flash green, then turn blue

Off | Place two fingers over touch sensitive control areas for 3 seconds

Indicator LED will flash red, then turn off

Volume Adjust

Volume Up | Hold finger over right control button until desired volume is reached

Volume Down | Hold finger over left control button until desired volume is reached

Volume Down   Volume Up

Connecting with Audio Cable

Plug one end of Audio Cable into the Shake Jack

Plug other end into the headphone jack of audio source (MP3 player, iPod, iPhone, portable CD player)

Connecting Wirelessly

With Shake in off state, place two fingers over control button areas for 4 seconds to enable **Bluetooth**® pairing mode

Indicator LED will flash blue and red when Shake enters pairing mode

Pairing Devices

When your **Bluetooth**-enabled audio device recognizes the Shake, accept the connection and enter the passkey "0000"

If the Shake is not auto-recognized, make sure **Bluetooth** is enabled on the audio device and accept Shake when recognized to complete the connection

Connection Complete

Once you have made a connection to the audio device, the Shake's indicator LED will flash blue, signaling that it is now paired

Music from the audio device may now be played through the Shake

Figure 1

Using Gecko Mount

1 Attach straps by hooking them over tabs on Mount (Figure 1)

2 Peel backings from three Dual Lock™ discs and attach one to bottom of each pad, pressing firmly (Figure 2)

Let stand 30 minutes for adhesive to cure

3 Attach three more discs as shown, pressing firmly to fasten discs together
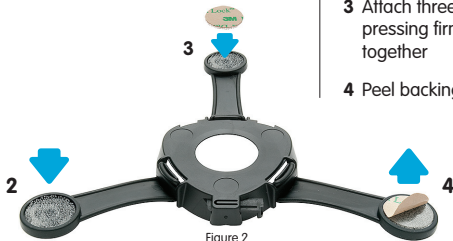

4 Peel backings

Figure 2

Attach Shake to Gecko Mount

Place Shake into Gecko mount as shown, aligning the 3 tabs of the Shake Mounting Bracket into the slots of the mount

Slide latch at bottom of mount to lock the Shake in place

Slide Latch to Lock

Attach Gecko Mount to Helmet

Attach Gecko Mount as shown

For best results, make sure helmet is clean and smooth and bottom of Shake comes in full contact with surface

Let stand for 5 minutes for adhesive to cure

Play audio through the Shake and if needed, adjust tension on straps by repositioning Dual Lock discs to improve sound quality

Using the Tunestrap

Stretch open and slide Shake into Tunestrap sleeve as shown

Make sure Shake Jack aligns with hole in sleeve

Tunestrap Sleeve

Shake Jack

Attach Tunestrap to Helmet

Feed Velcro strap through vents in helmet

Feed ends of Velcro strap through plastic loops on Tunestrap and fold over to attach to itself

Tighten Velcro strap as needed to prevent Tunestrap from sliding around

Adjusting the strap tension will also help improve the Shake audio

Charging

Plug mini-phono connector of Charging Cable into the Shake Jack

Plug USB connector into any device's powered USB port

For faster charging, turn Shake off and use a USB wall charger (not included)

Charge Indicators

When Shake is On…

- 🔵 Above 20% battery charge
- 🔴 Less than 20% battery charge

When Shake is Off & Charging…

- 🔴 Charging
- ⚪ Fully charged (no LED)

Blue LED Indicates At Least 20%
Charge Remaining

Red LED Indicates Low Charge
Warning or Charging
